

Approved 5-year rotation for ACE Assessment

Revised and adopted: December 13, 2010¹

This proposal addressed charge to the University-Wide Assessment Committee found in ACE Governing Document 4 (p. 5):

The University-wide Assessment Committee responsibilities include:

- *developing and communicating a 5-year rotation for the assessment of the 10 Learning Outcomes so that the assessment process is regular, reasonable, and distributed over time (ACE Governing Document 4 p. 5)*

5-year Assessment Rotation		
<i>Academic Year**</i>	<i>Assessment of Student Learning Outcome (SLO)</i>	<i>Follow-up on Recommendations</i>
2009-10		
2010-11		
2011-12	SLO 1, 2, 3	
2012-13	SLO 4, 6, 7	SLO 1, 2, 3
2013-14	SLO 5, 9	SLO 4, 6, 7
2014-15	SLO 8, 10	SLO 5, 9
2015-16	5-year Program Review	SLO 8, 10
2016-17	SLO 1, 2, 3	5-year Program Review

****Note:** This would be the reporting cycle for ACE assessment activities at the **department**, **college** and **institutional** level. This cycle begins in 2011-12² to allow initial set of courses two years to gather evidence before reporting. ACE assessment activities at the **course** level would occur every time the course is offered starting in the fall 2009.

- 2016-17 will also be the next HLC accreditation visit for UNL.
- UWAC and the UCC-ACE subcommittee agree that the recertification timeline be synchronized with the 5-year rotation for ACE assessment so the reporting workload for departments is minimized.
 - If a course is certified for 2 outcomes, departments can choose which year the assessment for the course will take place.

¹ UWAC revised initial assessment reporting timelines with appropriate ACE Student Learning Outcomes (SLO) approved by the UCC-ACE committee. Adopted by UWAC on December 13, 2010

²Updated time line approved March 29, 2010
